

Nantucket Sound Seafood

Industry Cage Inventory

January 13, 2015

Stephen/Danny,

Today I went to Nantucket Sound Seafood yard to inventory the industry clam cages in question. Nick and Kayleb from NSS joined me and provided assistance in access of the cages. A NSS Cage Reclamation Roster was created on January 13 2015 @ 10:15 am to identify each cage by ID Marking. Seals/Tags w/ the words "Sealed" were used confirming cages were confirmed and documented. Pictures were provided for four cages.

The tally for January 13th 2015 was as follows:

- 1 SeaWatch w/ cut top frame (which was immediately brought to my attention by Nick)

- 4 Freshly Painted w/ NSS – Picture Taken of 1 cage

- 2 Freshly Painted w/ NSS w/ noticeable grinding of an ID
- 4 SeaWatch Cages w/ ID in tact
- 2 Eastern Shore
- 2 Blank – No evidence of ID removal
- 9 Surfside Products
- 1 Cage ID Ground Down , No Company ID – Picture Taken

- 1 Cage ID (C/J P) Difficult to read, but something there – Picture Taken

I was told by Nick 11 cages of shellstock will be coming to NSS Plant on Thursday morning. I asked for access to the eleven cages on Thursday am. Nick would like for me to be there Friday but I would prefer Thursday to re-confirm today's inventory against what arrives at the NSS Plant to be shucked Thursday am.
